

INVITATION to the first Industry Day

in the scope of the new Helmholtz Innovation Lab HySPRINT:

NEW FRONTIERS IN PV RESEARCH: EMERGING PEROVSKITE SEMICONDUCTORS

13 October 2017
Helmholtz-Zentrum Berlin
Adlershof

During lectures and discussions we will address the following topics from industrial and scientific viewpoints:

- Industrial large scale production of perovskite solar cells
- Longterm stability of perovskite solar cells
- Wafer-based silicon-perovskite tandem solar cells and modules

We look forward to identifying with you innovative challenges and potential fields of cooperation.

Further information will follow shortly. You can also contact us at HySPRINT@helmholtz-berlin.de

Prof. Dr. Bernd Rech
(HySPRINT Steering Board Speaker)

Dr. Stefan Gall
(HySPRINT Manager)
