Title in plain language with your core message

PRESENTING AUTHOR/INSTITUTION

Summary:

- **Motivation/Context?**
- **What was the research question?**
- **What results have you got?**
- **Please use short sentences and bullet points.**
- **Minimum font size 14**

TRY THE OTHER WAY AROUND:
Imagine you are the reviewer...
What would you like to see on the poster?

Example: What happens on the interfaces in Si-
Pero-tandem solar cells?

SPACE FOR KEY FIGURES

LESS IS MORE!
Do not copy the abstract of your paper. You are there to discuss your research and to communicate with your audience!

One of your figures might show the experimental set-up if this is interesting.. The figures should be easy to understand.

SPACE FOR KEY FIGURES

Figures must have appropriate caption.
Figures must be large and text easily legible.

Supershort: Experimental set-up and methods:

Conclusion:

- **What are the consequences and the impact of your results?**
- **Outlook into further research?**
- **Bullet points recommended.**
