DGK-AK1-Workshop

Diffraction Data Collection Using Synchrotron Radiation

The workshop comprises a series of basic lectures on the topic and two extended practical sessions. It is aimed at PhD students in Biological Crystallography with little or no experience in diffraction data collection at a synchrotron. The maximum number of students admitted will be 20.

Invited Speakers:

Kay Diederichs
Kristina Djinovic Carugo
Christian Feiler
Andreas Förster
Martin Gerlach
Uwe Mueller
Karine Röwer
Manfred S. Weiss

Sponsors:

IUCr Journals

Dectris

Jena BioScience

Arinax

Mitegen
