

Jesse Benck

Jesse Benck is a Ph.D. candidate in the research group of Thomas F. Jaramillo at Stanford University, with research interests that include nanostructured molybdenum sulfide catalysts for the hydrogen evolution reaction and silicon photocathodes for solar water splitting. Jesse Benck holds a B.S. in Chemical Engineering from Northwestern University (2009) and a M.S. in Chemical Engineering from Stanford University (2012), and is the recipient of a National Science Foundation Graduate Research Fellowship.
