Campinas, 14th March 2016

To: Daniel Clemens
EM-ISFM
Helmholtz-Zentrum Berlin für Materialien und Energie GmbH
Hahn-Meitner-Platz 1
14109 Berlin Germany,

Dear Dr Clemens,

Please see find below the additional information requested by the evaluation committee:

Committee question: Range of available accommodation to meet various budgets of delegates:

Please see below a range of accommodations, with prices starting at R\$ 55 (Youth hostel). These suggestions are the ones recommended by the CNPEM/LNLS communication group when our institute organises events. Moreover, a daily bus transportation will be organised by the conference organisation from Campinas and Barão Geraldo to the conference venue to facilitate the transportation of the conference participants. More accommodation options can be found on websites such as <http://www.booking.com/> ...

- **The Royal Palm Plaza Hotel (Venue Event)**

Situated in the suburb of Campinas, the Royal Palm Plaza Resort is 20 minutes from Viracopos international airport in Campinas and 1½ hour from Guarulhos

Laboratório Nacional
de Luz Síncrotron

international airport in São Paulo, which both offer direct flight connections to major worldwide cities.

Tarifa de hospedagem 2016: From R\$ 64,90 to R\$ 79,90

- **Hostel Chaplins**

Located in Campinas/Barão Geraldo district, nearby LNLS; 22,3 km distance from the venue - The Royal Palm Plaza - around 00:21 min. by car

Website: <http://chaplins.com.br>

Tarifa de hospedagem 2016: From R\$ 55,00 to R\$ 150,00

Committee question: Envisaged size and capacity of the conference, including size of the plenary hall.

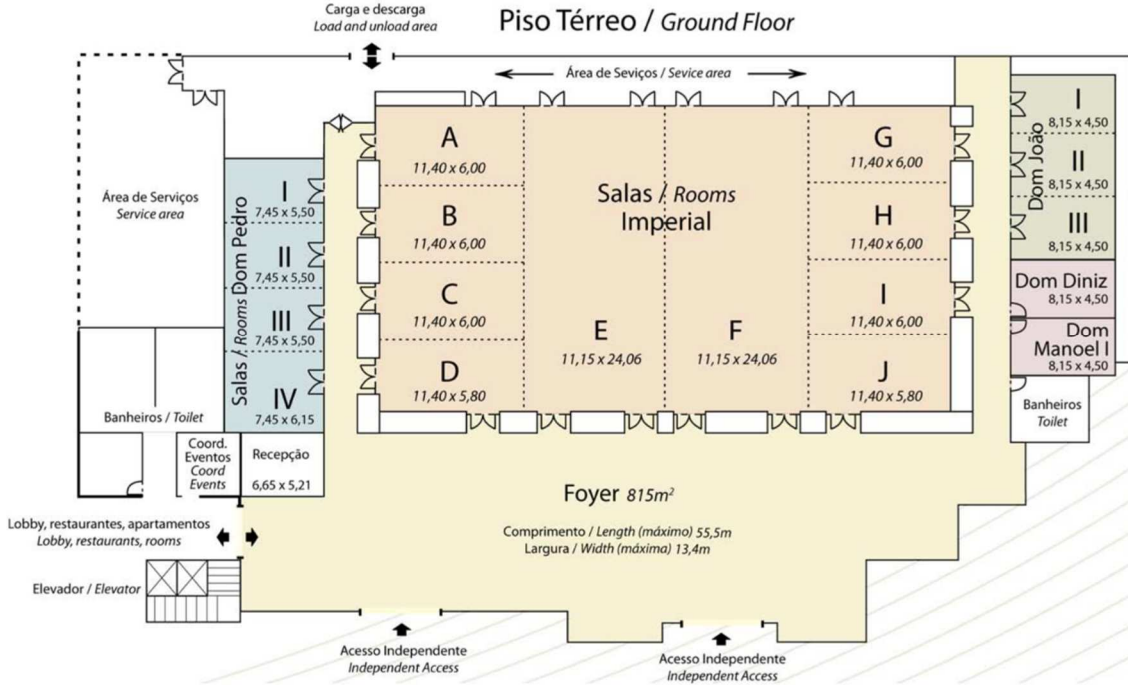

The Royal Palm Plaza offers several configurations of rooms and auditorium. We expect an attendance of close to 500 participants for the conference, the Royal Palm Plaza offers several rooms and auditorium configurations, among which an auditorium with capacity of 500 persons (which could be extended up to 780) plus 6 rooms of 120 persons capacity each.

Regarding the commercial exhibition hall, the Royal Palm Plaza proposes a foyer of 815 m².

Please see below the rooms configurations and capacities.

Committee question: Visa requirements for delegates.

Most of the European participants will not need any visa (period of stay < 90 days). A list, from the Brazilian ministry of external relations - immigration division can be found at the following link: <http://www.portalconsular.mre.gov.br/estrangeiros/qgrv-simples-ing-24.11.2015.pdf> listing the visa exempted countries and the types of visa necessary for the others.

Note that Brazil is hosting many tourists every year from every countries in the world and obtaining a tourist visa should not be an issue.

Usual recommendations:

VISA

- Visitors to Brazil must obtain a visa from one of the Brazilian Embassy or Consulate unless they come from one of the visa exempt countries,
- We strongly recommend you check with your local Brazilian diplomatic mission if you need to apply for a tourist visa beforehand. Important: Bear in mind that you must apply for a visa in advance. It might take some weeks for you to get the visa.
- You will need a passport valid for at least 6 months before the date you plan to depart to Brazil.
- The Local Committee can provide a letter of invitation if you need to present it for visa or academic purposes. The Invitation Letter from the CNPEM may NOT be enough to obtain a Brazilian visa. Contact the Brazilian Embassy or Consulate for information on documents to provide.

Committee question : Evidence of support from national societies

Fundings from CNPq (National Research Council) and FAPESP (São Paulo) State Research Agency) will be requested in due time.

However, in 1996 when the SAS conference was held by the LNL S in Campinas, fundings from CNPq and FAPESP were obtained which enabled to “cover the local living expenses of the 71 invited participants and to provide partial support to 50 young scientists and scientists from less privileged countries”, J Appl Cryst, (1997), 30, 569-570.

List of the 10th SAS conference, 1996, fundings agencies and industrial sponsors:

(i) Brazilian Funding Agencies:

CNPq (National Research Council), FAPESP (State Research Agency), FAEP (UNICAMP Funding Agency).

(ii) Foreign Agencies and Institutions:

Laboratório Nacional
de Luz Síncrotron

CLAF (Latin-American Physics Center), IUCr (International Union of Crystallography), ICTP (Trieste), IUPAP, ARO (US Army Research Office), French Embassy.

(iii) National Laboratories:

SSRL (Stanford, USA), BNL (Brookhaven, USA), LLB (Saclay, France).

(iv) Commercial Exhibition:

Siemens Analytical X-ray Instruments, M. Braun-Graz Optical Systems, Daimler Benz Aerospace, Danphysics, Anton Paar.

CNPq (National Research Council), FAPESP (State Research Agency) funding agencies do provide support for organizing international events in Brazil, for example the IZC 18th International Zeolite Conference, Rio de Janeiro, to be held in June 2016, <http://www.izc18.com/>, receives support, among others, from the CNPQ. Note that we have the support of the Brazilian-MRS, Brazilian Chemical Society, and ABCr and LACA, societies that do also receive support from the CNPQ, FAPESP ... for organising their annual meetings (> 1500 persons)

We are certain to obtain strong support from the Brazilian funding agencies as well as partner research institutions and industrial support for the organization of SAS2021.
