

SP-454
January 2001

Vol. I

Proceedings

FIRST INTERNATIONAL SYMPOSIUM
on
MICROGRAVITY RESEARCH & APPLICATIONS
in
PHYSICAL SCIENCES and BIOTECHNOLOGY

Organised by ESA and the Seconda Università di Napoli (SUN)
Sponsored by ASI, CNES, CSA, DLR, NASA, NASDA, SUN and ESA

10-15 September 2000
Sorrento, Italy

European Space Agency
Agence spatiale européenne

CONTENTS

VOLUMES I & II

Welcome and Opening Session

A. Rodotà, Director General of the European Space Agency (ESA)	3
J. Feustel Btuechl, Director of Manned Space Flight and Microgravity, ESA	5
A. Viviani, SUN, Chairman of the Symposium	7

Round Table Discussion

Moderator: M.C.E. Huber

Introduction <i>Prof. M.C.E. Huber, ESA</i>	11
Prof. A.A. Chernov, NASA Marshall Space Flight Center	15
Prof. H.-J. Fecht, University of Ulm	17
Prof. D.T.J. Hurle, University of Bristol	21
Prof. R. Moreau, Laboratoire EPM Madylam, CNRS-ENSHM Grenoble	23
Prof. R.F. Sekerka, Carnegie Mellon University	25
Prof. M.G. Velarde, Universidad Complutense, Madrid	27

Fluid Physics I

Chair: J.C. Legros & M. Velarde

Effect of Convection on Diffusion in Liquids in Microgravity (<i>Abstract only</i>) <i>Sekerka, R.* (USA); Sofonea, V.** (RO); *Carnegie Mellon University, **Politechnica University of Timisoara</i>	31
Marangoni Effect on the Instability of Non-Uniformly Heated Falling Liquid Films <i>Slavtchev, S.* (BG); Miladinova, S.* (BG); Lebon, G.** (BE); Legros, J.*** (BE)</i> <i>*Institute of Mechanics, **University of Liège, ***Université Libre de Bruxelles</i>	33
First Results of the Microgravity Experiment MAGIA (FOTON-12) on Thermocapillary Flow Structures in an Side-Heated Annular Gap with Free Upper Surface <i>Schwabe, D. (DE) & S. Benz (DE), I.Physikalisches Institut, University of Giessen</i>	41
Convection and Interfacial Mass Exchange (CIMEX) <i>Legros, J.C. (BE); Colinet, P. (BE); Joannes, L. (BE) et al., Université Libre de Bruxelles</i>	53

Fluid Physics II

Chair: V. Dhir & N. Pellis

Investigation on Two-Phase Flow Regimes in Microgravity <i>Xie, J.C.* (CN); Lin, H.* (CN); Zhao, J.F.* (CN); Hu, W.R.* (CN); Ivanov, A.V.** (RU); Belayev, A.Yu.** (RU); *National Microgravity Laboratory, **Keldysh Research Center</i>	63
--	----

TOPS-ISS: Two-Phase Flow Studies on the International Space Station – A Conceptual Design <i>Rezkallah, K. (CA), de Jong, P. (CA) & Mack, K; University of Saskatchewan</i>	69
Equilibrium Instability, Internal Flows, Motion and Overturn of Dissolving Drops <i>Briskman, V.* (RU); Kostarev, K.* (RU); Viviani, A,** (IT); *Institute of Continuous Media Mechanics, RAS; ** Seconda Universita di Napoli</i>	75
Effect of Gravity on the Pressure Drop in Gas-Liquid Two-Phase Flow <i>Ohta, H. (JP); Kataoka, R. (JP); Morioka, S. (JP); Shinmoto, Y. (JP); Kyushu University</i>	83
Bubble Distribution in a Turbulent Pipe Flow <i>Colin, C. (FR); Legendre, D. (FR); Fabre, J. (FR); CNRS / INP-UPS</i>	91

Fluid Physics III **Chair: C. Golia**

Pleanary Lecture:

Frontiers of the Physics of Foams <i>Weaire, D.* , Verbist, G.** , Cox, S.J.* & Hutzler, S.*; *Trinity College, Dublin, Ireland; **Shell Research and Technology Centre, Amsterdam, The Netherlands</i>	103
Principles, Limits and Microgravity Applications of Self-Lubricated Liquids <i>Neitzel, G.P.* (USA); Dell'Aversana, P.** (IT); Tontodonato, V.**; (IT); Vetrano, M.R.** (IT); *Georgia Institute of Technology, **Microgravity Advanced Research and Support Center</i>	109
Space Experiments of Convection in a System of Two Immiscible Liquid Layers <i>Liu, Q.S.; Zhou, B.H; Geng, R.H.; Hu, L.; Zhang, P.; Yao, Y.L.; Hu, W.R.; National Microgravity Lab./CAS (CN)</i>	117

Fluid Physics IV **Chair: C. Ward**

Motion of Fine Particles in Solution under Gravity and Microgravity <i>Mukai, K.* (JP); Wang, Z.* (JP); Motegi, T.** (JP); *Kyushu Institute of Technology, **Chiba Institute of Technology</i>	127
Adsorption Dynamics, Interfacial Elasticity and Emulsion Stability: The Scientific Basis of the FASES MAP Project <i>Liggieri, L.; Ferrari, M. (IT); Ravera, F. (IT); Passerone, A. (IT) et al; ICFAM-CNR</i>	133
Influence of Variable Viscosity on Convective Flow in Liquid Bridges. 3-D Simulations of Ground Based Experiments <i>Shevtsova, V.M. (BE); Melnikov, D.E. (BE); Université Libre de Bruxelles</i>	141
Forced Oscillations of Isothermal Axisymmetric Liquid Bridges <i>Perales, J.M. (ES); Meseguer, J. (ES); Luengo, V. (ES); IDR/UPM, Universidad Politecnica de Madrid</i>	149
Heat and Mass Transfer Phenomena in Two-Phase Near-Critical Fluid Observed in Microgravity <i>Garrabos, Y.*; Wunenburger, R.* (FR); Lecoutre-Chabot, C.* (FR); Hegseth, J.** (USA); Nikolayev, V.*** (FR); Beyens, D.*** (FR); *CNRS, **University of New Orleans, ***CEA</i>	157

Poster Session : Fluid Physics

- Numerical and Experimental Study of Thermal Convection under Quasi-Static Component of Microgravity Field 167
Yuferev, V. (RU); Konstantinov, V. (RU); Budenkova, O. (RU); Ioffe Physical-Technical Institute
- Oscillating Bubble Experiments Performed during the STS-95 Mission in November 1998 175
Krägel, J. (DE); Miller, R.* (DE); Kovalchuk, V.I.** (UA); Liggieri, L.*** (IT); Ravera, F.**** (IT); Ferrari, M.+ (IT); Loglio, G.** (IT) et al; *Max Planck Institute of Colloids and Interf., **Institute of Biocolloid Chemistry, ***Inst. di Chimica Fisica Applicata d. Materiali-CNR, ****Inst. Chimica Fisica Applicata dei Materiali-CNR, +Inst. Chimica Fisica Applicata dei Materiali-CNR, **University of Florence*
- On the Behaviour of Complex Magnetizable Fluid Media in Microgravity Conditions 183
Vékás, L.; Piso, M.-I.*; Potencz, I.** (RO); Bica, D.** (RO) *Romanian Space Agency, **University "Politehnica" Timisoara*
- Effect of Microgravity on Biology of Development and Physiological-Biological Peculiarities of Orchids with Different Morphocotypes 191
Cherevchenko, T. (UA); Zaimenko, N.V.* (UA); Martynenko, O.I.** (UA); *National Botanical Garden, NAS, **Inst. of Molecular Biology & Genetics, NAS*
- Stability of Shear Layers in the Interface of a Binary Liquid System – Experiment Definition, 3-D Numerical Problem Formulation, 2-D Numerical Results for Steady Basic Flow, Results of Ground-Based Preparation Experiments on Basic Flow 199
Schenkel, T. (DE); Stoynov, M. & Oertel, H.; University of Karlsruhe
- Experimental Studies of Marangoni Convection in Thin Liquid Layers Caused by Soluble Surfactant 207
Zuev, A. (RU); Briskman, V.A.* (RU); Legros, J.-C.** (BE); Velarde, M.G.*** (ES); Viviani, A.****; *Institute of Continuous Media Mechanics UB RAS, **University of Brussels, ***Univ. Complutense de Madrid, **** Seconda Universita di Napoli*
- Convective Instabilities Induced in a Critical Fluid under Terrestrial Gravity Conditions 215
Ishii, K.; Maekawa, T.** (JP); Ogane, T.** (JP); Ohnishi, M.* (JP); Yoshihara, S.* (JP) *National Aerospace Laboratory, **Toyo University*
- Behaviour of Liquids under Microgravity and Simulation Using Neutral Buoyancy Model 221
Venkatesh, H.S. (IN); Krishnan, S.* (IN); Prasad, C.S.* (IN); Valiappan, K.L.* (IN); Madhavan Nair, G.*; Raghunandan, B.** (IN); *Liquid Propulsion Systems Centre, **Indian Institute of Science*
- Simulation of Natural Convection in a Side-Heated Cavity with a Near Critical Fluid 229
Polezhaev, V.I. (RU); Soboleva, E.B. (RU); Institute for Problems in Mechanics, RAS
- Phase Separation in Gas and Liquids in the Absence of Gravity: Laser Induces Particular Bubble Growth 235
Lecoutre-Chabot, C. (FR); Delville, J.P.** (FR); Garrabos, Y.* (FR); Beysens, D.*** (FR); *Inst. de Chimie d.l. Matière Condensée de Bordeaux, **Université Bordeaux I, ***CEA-Grenoble*
- Temperature and Flow Fields in Compound Samples Heated in Multizone Resistance Furnaces in Microgravity 243
Perez-Grande, I. (ES); Rivas, D. (ES); ETSI Aeronauticos / UPM

Combustion

Chair: A. Liñán

- Combustion Synthesis of the Metal-Sulphides Refractory Glass Ceramics. Ground-based and Microgravity Study 251
*Goroshin, S. * (CA); Lee, J.H.S. * (CA); Herring, R. ** (CA); *McGill University, **Canadian Space Agency*
- The Behaviour of Flames Spreading over Thin and Thick Solid Fuels in Oxygen-Enriched, Quiescent Atmospheres: Experiments in Earth-Orbiting Facilities and Comparative Modeling and Numerical Simulations 259
Sacksteder, K. (USA), NASA Glenn Research Center
- Experiments Conducted on Combustion of a Solid at Microgravity in the Texus-38 Sounding Rocket. Results and Conclusions 267
*Sanchez-Tarifa, C. * (ES); Lazaro, B. ** (ES); *Universidad Politecnica Madrid; **SENER*

Poster Session : Combustion

- Gravity Effects on Combustion Synthesis of Glasses 277
*Yi, H.C. * (CA); Guigné, J.Y. * (CA); Moore, J. ** (USA) et al.; *Guigné International Ltd., **Colorado School of Mines*
- Introduction of some Microgravity Combustion Research in Japan Relating Solid and Gaseous Fuels 285
Ito, K. (JP); Fujita, O. (JP); Hokkaido University
- Recent Advances in Droplet and Spray Combustion under Microgravity in Japan 293
*Kadota, T. * (JP); Kono, M. ** (JP); Sato, J. *** (JP); *Osaka Prefecture University, **University of Tokyo, ***Ishikawajima Harima Heavy Industries Co. Ltd.*
- Effects of Microgravity on High-Temperature Self-Propagating Reactions 299
*Medda, E. * (IT); Orrù, H. ** (IT); Cao, G. * (IT); Fry, J. ** (CA); Guigné, J. ** (CA); Zell, M. *** (DE); *Dip. di Ingegneria Chimica e Materiali e, **Guigne International Limited, ***DaimlerChrysler Aerospace*
- Transition from Flame Propagation to Extinction under Microgravity Conditions 307
*Jarosinski, J. * (PL); Podfilipski, J. * (PL); Veyssiere, B. ** (F); *Technical University of Lodz; **CNRS-ENSMA*
- The Influence of Water Mists on Premixed Flame Propagation in Microgravity 313
Abud-Madrid, A.; Riedel, E.P.; McKinnon, J.T.; Colorado School of Mines, USA

Crystallisation I

Chair: L.H. Dao & J.M. Garcia Ruiz

- Depletion Zone around Sedimenting Protein Crystals in Microgravity 323
*Carotenuto, L. * (IT); Cartwright, J. ** (ES); Otálora, F. ** (ES); Garcia-Ruiz, J. ** (ES); Castagnolo, D. * (IT) et al. *MARS; **CSIC-Universidad de Granada*
- Calcium Phosphate Precipitation under Biomineralization Conditions: Effect of Microgravity 331
Suvorova, E. (RU); Institute of Crystallography of RAS
- Pleurochrysis Carterae: a Model to Study Biologically Directed Mineralization in Space 337
Duke, P.J. (USA); Montufar-Solis, D. (USA); University of Texas Health Science Center

- Unidirectional Solidification of TbFe₂ Alloy Using Magnetic Field in Microgravity 349
Minagawa, H. (JP); Kamada, K.** (JP); Konishi, T.* (JP); Tsurue, T.* (JP); Nagai, H.* (JP); Nakata, Y.* (JP); Goto, Y.* (JP); Okutani, T.* (JP); *Hokkaido National Industrial Research Institute, **JP Space Utilization Promotion Center*

Crystallisation II

Chair: G. Mueller

- Experiments and Modeling of Te Segregation in Te-Doped GaSb in Terrestrial and Microgravity Conditions using the Bridgman Technique 357
Saghir, Z.(CA); Balage, S.* (CA); Labrie, D.** (CA); Viviani, A.*** (IT); Redden, R.****(CA); *Ryerson Polytechnic University, **Dalhousie University, ***Seconda Universita di Napoli; ****Amistar Research and Development*
- Crystal Growth of a Binary Semiconductor under Microgravity Conditions 367
Hiraoka, Y. (JP); Ikegami, K.* (JP); Maekawa, T.* (JP); Matsumoto, S.** (JP); Yoda, S.** (JP); Kinoshita, K.** (JP); *Toyo University; **National Space Development Agency of Japan*
- Dewetting of CdTe in Microgravity 373
Feltgen, T. (DE); Fiederle, M.* (DE); Benz, K.W.*; Duffar, T.**; Dieguez, E.***; Roosen, G.****; Launay, J.C.*****; *Kristallographisches Institut Universität Freiburg, ** DEM/SPCM/LPS Grenoble, *** Universidad Autonoma de Madrid, ****Institut d'Optique Théorique et Appliqué LCF-IO/CNRS Orsay; ***** 3AR ICMCB/ Aerospatiale/ CNRS*
- Influence of Gravity on Defect Formation in Homoepitaxial Layers of SiC Grown by Sublimation 381
Yakimova, R.; Syväjärvi, M.*; Dedulle, J.-M.**&***; Pons, M.****; Janzén, E.*; *Linköping University, ** LMGP, UMR 5628 (CNRS/INPG) Grenoble; ***Iris Technologies; **** Institut National Polytechnique de Grenoble*
- The Effect of Oxygen Partial Pressure on Surface Tension and Thermocapillary Flow of Molten Silicon 389
Hibiya, T. (JP); Mukai, K.** (JP); Azami, T.* (JP); Nakamura, S.* (JP); Sumiji, M.*** (JP); *NEC Corporation, **Kyushu Inst. of Technology, ***Tokyo Institute of Technology*
- Crystallization of Semiconductors in Microgravity - Current State, Problems and Prospects (The Results of 25-Years' Experience in Space) 395
Mil'vidskii, M. (RU); Kartavykh, A. (RU); Rakov, V. (RU); Inst. of Chemical Problems for Microelectronics
- 25 Years of Crystal Growth Experiments under Microgravity Conditions 403
Duffar, Th. (FR); Benz, K.W.** (DE); Brinkman, A.***(UK); *Commissariat à l'Energie Atomique, Grenoble; **Universität Freiburg; ***University of Durham*

Poster Session : Crystallisation

- Effects of Thermocapillary Mixing Generated by Voids on Microgravity Segregation Patterns 409
Kassemi, M. (USA) & Barsi, S. (USA); NASA Glenn Research Center
- XRD Investigation on Structural Aspects of Indium Melting 417
Montanari, R. (IT); Costanza, G. (IT); University of Rome "Tor Vergata"
- Thermodynamic Analysis of GaSb-GaCl₃ Vapor Phase Epitaxy 425
Lu, D-Ch. (CN); Lin, L.(CN); Chinese Academy of Sciences

Weak Convection Influencing Radial Segregation <i>Carlberg, T. *(SE); Winkler, C. ** (SE); Amberg, G. ** (SE); , *Mid Sweden University, **Royal Inst. of Technology,</i>	431
Biomolecule Crystallisation in Microgravity <i>Carotenuto, L.(IT); Castagnolo, D. (IT); Piccolo, C. (IT) et al.; MARS Center</i>	437
Homogeneous In _{0.3} Ga _{0.7} As Crystal Growth <i>Kinoshita, K. * (JP); Kato, H. ** (JP); Iwai, M. *** (JP); Tsuru, T. *** (JP); Muramatsu, Y. *** (JP); Yoda, S. ** (JP); *NTT Basic Research Laboratories, **NASDA, ***Advanced Engineering Services Co. Ltd.</i>	445
On-Ground Refinement and Space Growth of Ge Single Crystals by FZ-Technique with the Action of Low-Induction Rotating Magnetic Fields <i>Kartavykh, A. (RU); Ufimtsev, V. (RU); Mil'vidskii, M. (RU); Rakov, V. (RU); Inst. of Chemical Problems for Microelectronics</i>	451
Crystals Grown in Microgravity Can Yield Better Protein Structures: The Examples of Thaumatin and Aspartyl-tRNA Synthetase <i>Théobald-Dietrich, A. * (FR); Lorber, B. * (FR); Ng, J.D. * (FR); Sauter, C. * (FR); Charron, Ch. * (FR); Robert, M.-C. ** (FR); Capelle, B. ** (FR); Giegé, R. ** (FR); *CNRS, **CNRS, Universités Paris VI et VII</i>	457
Ice Crystal Pattern Formation under Gravity and Microgravity Condition <i>Furukawa, Y. (JP); Yokoyama, E. (JP); Hokkaido University</i>	465

Thermophysical Properties Chair: R. Moreau

Gas Bubbles in Glass Melts under Microgravity <i>Frischat, G.H. (DE); Technische Universität Clausthal</i>	475
Diffusion Experiments in Liquid Metals - Preliminary Results (AGAT-Module on FOTON12) <i>Praizey, J.P. * (FR); Garandet, J.P. * (FR); Froberg, G. ** (DE); Griesche, A. ** (DE); Kraatz, K.H. ** (DE) *CEA/CEREM, **TU Berlin</i>	481
Non Equilibrium Fluctuations in the Free Diffusion of Binary Mixtures and Macromolecular Solutions <i>Brogioli, D. (IT); Vailati, A. (IT); Marzio, G. (IT); University of Milan</i>	491

Poster Session: Thermo-Physical Properties

Liquid Diffusion Measurements with the Shear Cell Technique - Study of Shear Convection <i>Griesche, A. *(DE); Kraatz, K.-H. *; Froberg, G. * (DE); Mathiak, G. ** (DE); Willnecker, R. ** (DE); *Technical University Berlin; **German Aerospace Centre</i>	497
Measurement of Thermal Expansion of Melts of Glass-Forming Alloys under Microgravity Conditions and on Earth <i>Damaschke, B. (DE); Samwer, K. (DE); University of Göttingen</i>	505
Effect of Convection on Liquid Diffusion Experiments <i>Mathiak, G. (DE); Willnecker, R. (DE); DLR German Aerospace Center</i>	513
Mechanisms of Solidification and Thermophysical Properties by Advanced Thermal Analysis <i>Battezzati, L. (IT); Baricco, M. (IT); Castellero, A.(IT) & Rizzi, P. (IT); Università di Torino</i>	521

Thermophysical Properties of Zr-Based Metallic Glass Forming Alloys in the Stable and Undercooled Melt – A Microgravity Investigation <i>Wunderlich, R.K. * (DE); Ettl, Ch. * (DE); Fecht, H.-J. * (DE); *Universität Ulm</i>	529
Non-Contact Electromagnetic Calorimetry of Metallic Glass Forming Alloys in Reduced Gravity <i>Wunderlich, R.K. (DE); Ettl, Ch. (DE); Fecht, H.-J. (DE); Universität Ulm</i>	537
The THERMOLAB Project: Thermophysical Properties of Industrially Relevant Liquid Metal Alloys <i>Fecht, H.-J. (DE) & Wunderlich, R.K. (DE); Universität Ulm</i>	545

VOLUME II

Materials I

Chair: H. Fecht

Plenary Lecture:

Thermophysical Property Requirements for Modelling of High Temperature Processes <i>Mills, K.C. & P.D. Lee</i>	555
Divorced Eutectic Growth in a Ternary Al-Mn-Si Alloy Under Microgravity <i>Hecht, U. (DE); Fries, S.G. (DE); Rex, S. (DE); ACCESS e.v.</i>	565
Melting-Pressing Experiment of Compacted Ni-Mo-Cr-Co-TiC Mixed Powders on Space Shuttle <i>Takahashi, S. (JP); Former National Research Institute for Metals</i>	573
Comparative Study of the Influence of Convection on Columnar and Equiaxed Microstructures in Directional Solidification of Non-Refined and Refined Al-Ni Alloys <i>Camel, D. * (FR); Dupouy, M. * (FR); Verrier, S. * (FR); Drevet, B. * (FR); Dabo, Y. ** (FR); Thi, N. ** (FR); Billia, B. ** (FR); *CEREM/DEM, **Université d'Aix-Marseille III et CNRS</i>	581
Development of Advanced Foams under Microgravity <i>Banhart, J. * (DE); Baumgärtner, F. ** (DE); Cox, S.J. *** (IE); Kronberg, B. **** (SE); Langevin, D. ***** (FR); Odenbach, S. ***** (DE); Weaire, D. *** (IE); Wübber, T. ***** (DE); *Fraunhofer-Institut, **Schunk Sintermetalltechnik GmbH,; ***Trinity College Dublin****Institute for Surface Chemistry, *****Université Paris Sud; *****University of Bremen</i>	589

Materials II

Chair: D. Hurler

<i>In situ</i> Characterisation of the Effect of Thermal and Thermosolutal Convection on Directional Solidification of Succinonitrile-Acetone Alloy <i>Jamgotchian, H. (FR); Bergeon, N. (FR); Benielli, D. (FR); Voge, Ph. (FR); Guerin, R. & Billia, B. (FR); Université Aix-Marseille III</i>	599
Pattern Formation during Directional Solidification of Succinonitrile-Acetone under Microgravity Conditions <i>Zimmermann, G. (DE); Kauerauf, B. (DE); Rex, S. (DE); ACCESS e.V.</i>	605
The Capture of Suspended Particles as a Crystallising Phase Advances into its Melt - The Influence of Reduced Gravity, the Ambient g-Jitter of MIR and Forced Motion on Particle Pushing <i>Smith, R. * (CA); Zhu, X * (CA); Tunncliffe, M.C. * (CA) et al; *Queen's University</i>	613
Particle Engulfment and Pushing - Microgravity Experiments and Mathematical Modeling <i>Stefanescu, D.M. * (USA); Catalina, A. ** (USA); Juretzko, F. * (USA); Mukherjee, S. * (USA); Sen, S. ** (USA); Dhindaw, B. *** (IN); *The University of Alabama, **NASA, Marshall Space Flight Center, ***Indian Institute of Technology</i>	621
