Announcement of the Innovation Award on Synchrotron Radiation 2022/23*

The association Freundeskreis Helmholtz-Zentrum Berlin e.V. announces the Innovation Award for scientific-technical developments in the field of provision and use of synchrotron radiation. The prize is awarded for an outstanding achievement that has significantly contributed to the further development of the technology, methodology or use of synchrotron radiation. The competition is open to individuals from research institutions, universities and industry in Europe. The prize is endowed with 6000 € and will be awarded on the recommendation of a selection committee during the HZB User Meeting in June 2023 in Berlin-Adlershof.

The board of the association asks for proposals until:

March 31, 2023

electronically (mathias.richter@ptb.de). The scientific-technical achievement proposed for the award and its implication are to be presented in a concise form in English in a verifiable manner. In addition to the curriculum vitae and list of publications, two personal references must be provided and a maximum of five relevant publications must be included.
