

IWXM 2022

7th International Workshop on Metrology for
X-ray Optics, Mirror Design and Fabrication

Berlin, 5th to 7th April, 2022

DEADLINE ABSTRACT
SUBMISSION
JANUARY 16TH
2022

The 7th International Workshop on Metrology for X-ray Optics, Mirror Design and Fabrication (IWXM) will be held in Berlin, Germany, from April 5th–7th, 2022 as a satellite workshop of the Synchrotron Radiation and Instrumentation-SRI conference 2022. It will provide a forum for presentation and discussion on the latest developments in X-ray optics like mirrors, gratings, reflection zone plates, etc. with particular regard to improvements in metrology, deterministic surface finishing, developments in ML-coatings, simulation of optical systems performance. Contributions from private companies are welcome. The workshop will include a series of oral and poster presentations as well as a tour of the BESSY-II synchrotron radiation source. The workshop will be held as a hybrid-event with the option of participation in person as well as virtual.

International Scientific Advisory Committee

- Frank Siewert (HZB/BESSY-II, Germany), Chair
- Frank Scholze (PTB, Germany), Co-Chair
- Simon Alcock (Diamond, UK)
- Lahsen Assoufid (APS, USA)
- Ray Barrett (ESRF, France)
- Daniele Cocco (SLA, USA)
- Uwe Flechsig (PSI, Switzerland)
- Ralf Geckeler (PTB, Germany)
- Mourad Idir (NSLS-I, USA)
- Ming Li (HEPS, China)
- Josep Nicolas (ALBA, Spain)
- Haruhiko Ohashi (Spring-8, Japan)
- Louisa Pickworth (MAX-IV, Sweden)
- Elke Plönjes (DESY, Germany)
- Francois Polack (Soleil, France)
- Lorenzo Raimondi (Elettra, Italy)
- Kawal Sawhney (Diamond, UK)
- Michael Störmer (Hereon, Germany)
- Muriel Thomasset (Soleil, France)
- Maurizio Vannoni (European XFEL, Germany)
- Amparo Vivo (ESRF, France)
- Kazuto Yamauchi (Osaka University, Japan)
- Valeriy Yashchuk (LBNL, USA)
- Marco Zangrando (FERM, Italy)

Local Organising Committee

- Frank Siewert
- Jens Viefhaus
- Jana Buchheim
- Grzegorz Gwalt
- Sophie Spangenberg
- Sandra Fischer
